POUFFES WITH WALL ELEMENT

Design Kaija Aalto

Wall-mounted seats represent new thinking in the use of space. Creatively designed seat cushions are comfortable to sit on, and the wall element works also as a decorative element in the space while adding color and variety to the interiors. Mukula with its sound-absorbing materials provide tools for acoustic management.

Mukula serves particularly well KGs and schools, but it is widely used in any public spaces, even homes. The cushions available in circle, ellipse, square and triangle shapes.

Materials and finishing

The cushion seat are upholstered with selected ISKU standard fabric. The zipper makes the cover removable and washable.

The wall mounting element is also upholstered.

POUFFES WITH WALL ELEMENT

Design Kaija Aalto

The wall mounting is done by means of permanent magnets at the bottom of the pouffes.

The upholstered Mukula wall mounting element is designed for purpose to enable storing the seats on the wall. However, the seats also attach to other metal surfaces that the magnet just sticks to.

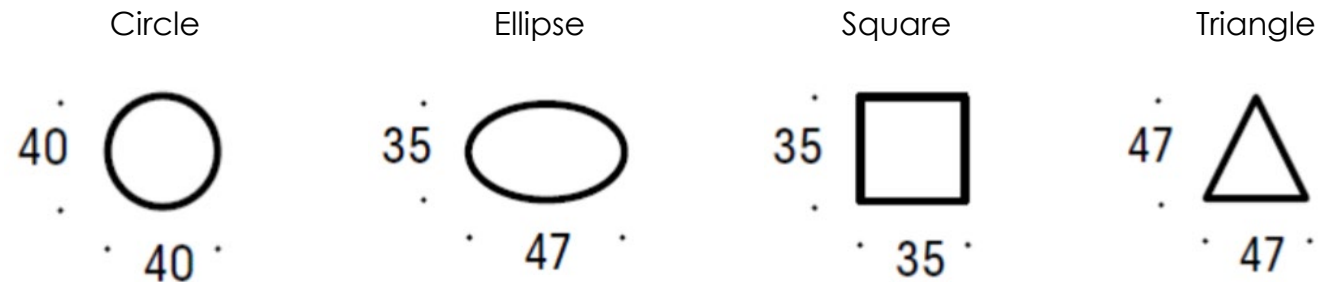

Attention to safety of use

Safety distance between pacemaker and the permanent magnet at the bottom of Mukula seat is 10 cm.

Dimensions of the pouffes (cm)

Width and depth of the shapes

Each pouffe is available in three heights, 7, 16 or 23 cm.
