|------------------------------------|---------------------------|
| Product name:                      | Duo conference chair      |
| Product type:                      | Chair                     |
| Item number:                       | 205499                    |
| Total emissions (Cradle-to-Gate):  | 83.3 kg CO <sub>2</sub> e |
| Total emissions (Cradle-to-Grave): | 95.4 kg CO <sub>2</sub> e |

### Distribution of emissions

Total emissions 95.4 kg CO<sub>2</sub>e

### Recycling Instructions

ISKU has designed the product so that the metal parts of the product can be easily removed and recycled in metal collection. Packaging materials (cardboard and plastic) are recycled in cardboard and plastic collection. The rest of the product is assumed to go into mixed waste.

The calculation has been carried out according to ISO 14067 by Green Carbon.
