ISKU

Product name:	Tutto chair with four-point base
Product type:	Chair
Item number:	212861
Total emissions (Cradle-to-Gate):	24.0 kg CO ₂ e
Total emissions (Cradle-to-Grave):	31.3 kg CO ₂ e

Distribution of emissions

Total emissions 31.3 kg CO₂e

Recycling Instructions

ISKU has designed the product so that the metal parts of the product can be easily removed and recycled in metal collection. Packaging materials (cardboard and plastic) are recycled in cardboard and plastic collection. The rest of the product is assumed to go into mixed waste.

The calculation has been carried out according to ISO 14067 by Green Carbon.

ISKU

Product name:	Tutto chair with four-point base, upholstered seat
Product type:	Chair
Item number:	212862
Total emissions (Cradle-to-Gate):	43.8 kg CO ₂ e
Total emissions (Cradle-to-Grave):	51.3 kg CO ₂ e

Distribution of emissions

Total emissions 51.3 kg CO₂e

Fabric used in the calculation: **Steelcut Trio 3** (90% wool, 10% nylon) **19.12 kg CO₂e**

Alternative fabrics: *

Cura (98% recycled polyester, 2% polyester) **2.28 kg CO₂e**

Linetta (100% polyester) **3.13 kg CO₂e**

Recycling Instructions

ISKU has designed the product so that the metal parts of the product can be easily removed and recycled in metal collection. Packaging materials (cardboard and plastic) are recycled in cardboard and plastic collection. The rest of the product is assumed to go into mixed waste.

ISKU

Product name:	Tutto chair (upholstered), silver and grey
Product type:	Chair
Item number:	212863
Total emissions (Cradle-to-Gate):	47.3 kg CO ₂ e
Total emissions (Cradle-to-Grave):	54.6 kg CO ₂ e

Distribution of emissions

Total emissions 54.6 kg CO₂e

Fabric used in the calculation: **Steelcut Trio 3** (90% wool, 10% nylon) **22.59 kg CO₂e**

Alternative fabrics: *

Cura (98% recycled polyester, 2% polyester) **2.70 kg CO₂e**

Linetta (100% polyester) **3.70 kg CO₂e**

Recycling Instructions

ISKU has designed the product so that the metal parts of the product can be easily removed and recycled in metal collection. Packaging materials (cardboard and plastic) are recycled in cardboard and plastic collection. The rest of the product is assumed to go into mixed waste.

The calculation has been carried out according to ISO 14067 by Green Carbon.

ISKU

Product name:	Tutto bar chair 650 (seat upholstered)
Product type:	Chair
Item number:	255917
Total emissions (Cradle-to-Gate):	44.8 kg CO ₂ e
Total emissions (Cradle-to-Grave):	52.7 kg CO ₂ e

Distribution of emissions

Total emissions 52.7 kg CO₂e

Fabric used in the calculation: **Steelcut Trio 3** (90% wool, 10% nylon) **19.12 kg CO₂e**

Alternative fabrics: *

Cura (98% recycled polyester, 2% polyester) **2.28 kg CO₂e**

Linetta (100% polyester) **3.13 kg CO₂e**

Recycling Instructions

ISKU has designed the product so that the metal parts of the product can be easily removed and recycled in metal collection. Packaging materials (cardboard and plastic) are recycled in cardboard and plastic collection. The rest of the product is assumed to go into mixed waste.

The calculation has been carried out according to ISO 14067 by Green Carbon.

* The emissions of alternative fabrics have been estimated based on the weight of the fabric used in the calculation. In reality, the weight of the alternative fabric may be different, which affects the actual emissions. However, this assessment provides guidance in the comparison between fabric materials.
