

MyFlow Meeting

Design Vertti Kivi

MyFlow Meeting was born a classic. The design combines wood, carefully selected upholstery materials and metal in a unique way. The look of the product is light and soft-lined. The product is finished with a piece of spectacular jewelry that combines the seat to the back rest.

MyFlow Meeting

MEETING CHAIR

Datasheet

MyFlow Meeting chair is available with multiple options.

Leg options

All MyFlow Meeting chairs are available with four leg options:

- **4-star cross-base** with pads (white, black, aluminium)
- **5-star cross-base with castors** and height-adjustable gas string (white, black, aluminium)
- **Wooden legs** are of natural birch, painted black or white or stained with ISKU standard stain colours.
- Chairs with **loop leg** are powder-coated steel (grey, black, white, silver) and chrome

Castors

The castors in 5-star cross-base are black, white or chrome.

Upholstery material

MyFlow Chairs are upholstered with materials selected carefully to fit to the MyFlow look. In addition, MyFlow chairs can be upholstered with leather (Lena).

Back rest options

The backrest can be overall upholstered or a combination of fabric and veneered plywood.

Jewelry

The product is finished with a spectacular piece of jewelry that combines the seat to the back rest. The jewel is made of metal (brass, copper, painted black or white).
