## MODULAR SOFA

Nea Vikström and Petteri Häkkinen

With the elegantly designed sofa modules in the Cake series, you can create inventive discussion and working areas in open-plan spaces. Cake can be used either to create peaceful, enclosed groups or continuous architectural shapes by combining straight and curved elements. By choosing castors for the sofa, you can easily change and create the sofa combinations you desire. Modules can be easily disconnected or connected together with connection plate.

### Materials and finishing

Frame	Plywood
Upholstery	ISKU standard fabric and leather collection
Leg	Plastic (H60mm) or castor (H70mm)

### Dimensions

Measurements can be found in the technical datasheet.

Tolerance for the upholstered measurements +/- 20 mm.

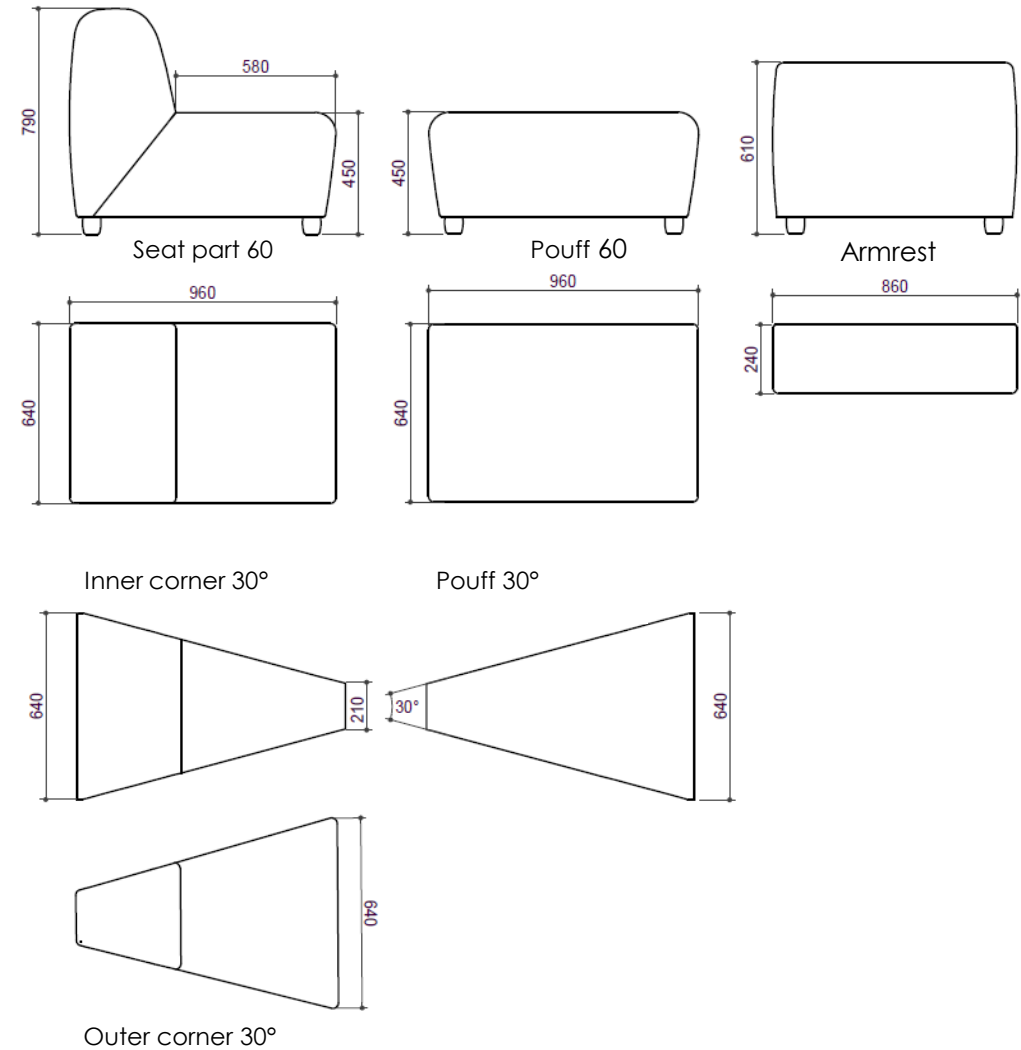

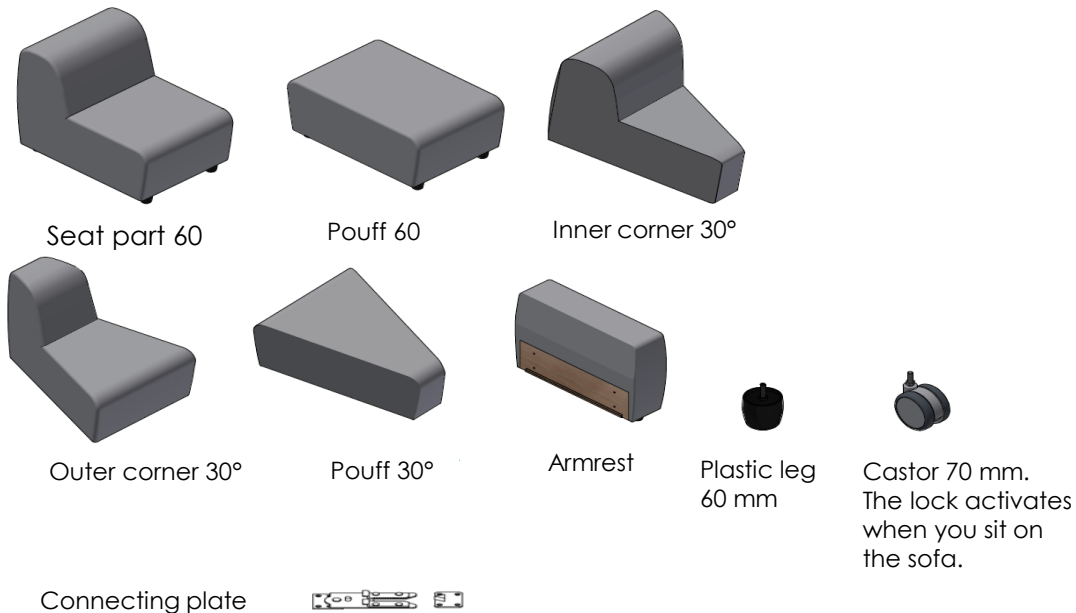

# Product

## POSITION

## Datasheet

You can create playful combinations and choose from various fabrics. The modules can be connected using a connection plate and the sofa can be equipped with either plastic legs or castor that lock when sitting.
