## MODULAR SOFA

Design Petteri Häkkinen

Naked is a modular sofa that allows you to create various configurations using just a few pieces. Simple yet versatile, the Naked sofa series is designed to provide perfect comfort while enabling users to assemble their own unique spatial arrangements. Its relaxed yet restrained design makes it suitable for a wide range of needs and spaces. The detachable pieces can be easily moved, such as the backrest and additional modules can be purchased later to expand the sofa. It can be equipped with either plastic - or metal legs.

### Materials and finishing

Frame	Birch plywood
Upholstery	ISKU standard fabric and leather collection
Legs	Plastic leg 40mm (black) or metal leg 120mm with ISKU standard metal colors

Connecting modules and accessories

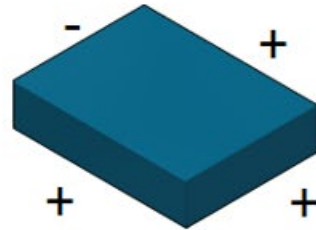

You can create multiple different sofa combinations by connecting sofas together with connection plate. Picture shows what connections you can do, plus (+) marking on the pictures allows you to connect the sofas.
